Summary — Result-oriented MERN stack developer with hands-on experience from internships and academic projects. Skilled in building responsive web applications using React.js, integrating RESTful APIs, and solving problems efficiently. Quick to learn new technologies and excited to grow in dynamic IT environments through teamwork and innovation.

Education

Marathwada Mitra Mandal's Institute of Technology

Bachelor of Computer Engineering

Aug 2021 – Jun 2024

CGPA: 8.14

Relevant Coursework: Data Structures and Algorithms, Operating Systems, Artificial Intelligence, Mobile App Development, Software Engineering, User Experience/User Interfaces

Skills

- **Development Technologies:** HTML5, CSS3, JavaScript, React.js, Node.js, Express.js, EJS
- **Tools & Technologies:** Visual Studio Code, Chrome DevTools
- **Version Control:** Git, GitHub
- **Database:** MySQL, MongoDB
- **API Integration:** REST APIs
- **Responsive Design:** Mobile-first, cross-browser compatibility

Experience

Binated Inc.

October 2023 - February 2024

Software Developer Intern

- As a Software Developer Intern at Binated Inc., I developed software solutions using PHP and Laravel.
- I collaborated with senior developers, gaining experience in database management and API integration.
- Assisted in troubleshooting and resolving complex technical issues to ensure project deadlines were met.
- I am thankful to be able to work on meaningful projects with a supportive team.

Projects

AM Nutrition – Nutrition Store Management Web App

March 2025 – Ongoing

[Link to Demo](#)

- Building a web application for a real-world nutrition supplement store using React.js, Node.js, Bootstrap, and JavaScript.
- Currently using JSON Server for mock API data fetching during development.
- Collaborating with a teammate and managing the project workflow through GitHub.
- Gain hands-on experience in full-stack development, version control, and client-based project delivery.
- The project is ongoing and will be handed over to the AM Nutrition Supplement Store upon completion.

FreshCart UI Clone Project

Feb 2025

[Link to Demo](#)

- Recreated the UI of FreshCart's homepage using React.js, Bootstrap, HTML, and CSS to demonstrate front-end development skills.
- Reusable React components built to ensure modularity and maintainability.
- Focused on responsive design and clean, professional layouts using Bootstrap classes.
- Strengthened understanding of real-world user interface design, best-practice styling, and component-driven architecture.

Achievements

International Hackathon Participant — 2nd Place at International Level Hackathon

Nov 2022

SUN-HACKS 2022

Sandip University, Nashik

- Developed an Android application for digital documentation of forts and heritage monuments using emerging technologies.
- Implemented geo-tagging of photographs and created a database of heritage monuments using geo-spatial technologies.
- Creating static data that provides information on heritage monuments.

Certifications

- Speedup Infotech — MERN Stack Development
- Internshala — Android App Development
